

Company: SiliconCore Semiconductor Pvt. Ltd.

Operational Performance Data

Reporting Period: FY2024

Product Segment Performance

Segment	Revenue (₹ Crore) Growth %	
Microcontroller Chips	520	14%
Power Management ICs	420	11%
AI Accelerator Chips	260	22%
Analog Signal Processors	220	9%

Manufacturing Metrics

Total Wafers Produced: 2.8 Million

Average Yield Rate: 93%

Defect Density: 0.15 defects/cm²

Customer Portfolio

Automotive Electronics	38%
Consumer Electronics	30%
Industrial Automation	20%
Telecommunications	12%

Operational Highlights

- New 7nm chip fabrication line operational

- AI accelerator chips recorded highest growth
- Yield improvements from process optimization initiatives
